Dispose of empty, used containers by:

Triple rinsing or preferably pressure rinsing containers with water. Add the rinsings to the spray tank. Do not dispose of undiluted chemicals on site.

If recycling, replace cap and return clean container to recycler or designated collection point.

If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit pit
specifically marked and set up for this purpose clear of waterways, desirable vegetation
and tree roots. Empty container and product should not be burnt.
